“NEW SESSION MEANS NEW BEGINNINGS, NEW ADVENTURES AND NEW CHALLENGES”

“Sustainability is no longer about doing less harm. It’s about doing better.”

Dear Esteemed Parents,
Greetings!

At Kalka Public School, our commitment goes beyond academics. We believe in nurturing responsible global citizens who are conscious of their impact on the environment. As we step into this new academic session, we are embracing the theme of Water as a Sustainable Resource—an essential element of life that demands our urgent attention and care. Sustainable development is not just about preservation, but about education—about empowering students with knowledge, attitudes, and skills that inspire them to protect and wisely use Earth’s most precious resource: water.

Water is not just a necessity—it is a right, and its responsible use starts with awareness. Through this year’s theme linked to SDG-6 (Clean Water and Sanitation), our school will integrate water conservation practices into daily routines, classroom activities, and projects. Students will learn how clean water access affects health, hygiene, and equity, and how even small changes in their habits can create a ripple effect of positive impact. Together, we aim to instill in our children the understanding that every drop counts, and the importance of building a sustainable future begins with mindful actions today.

Let’s join hands to inspire change—one drop at a time.
Looking forward to your continued support and cooperation.

Warm Regards,
Dr. Onika Mehrotra
Director Principal
Kalka Public School
